EXHIBIT HALL CARPET

The exhibit hall is carpeted. To enhance the appearance of your booth, rental carpet is available through P3. Please refer to the Carpet Brochure & Order form in this manual.

DISCOUNT PRICE DEADLINE DATE

Order early to take advantage of advance order discount rates, place your order by December 30, 2021. NATPEORDERS@P3inc.com

SHOW SCHEDULE

EXHIBITOR MOVE-IN

Sunday	January 16, 2022	10:00 AM - 5:00 PM
Monday	January 17, 2022	8:00 AM - 5:00 PM

EXHIBIT HOURS

Tuesday	January 18, 2022	10:00 AM - 6:00 PM
Wednesday	January 19, 2022	9:00 AM - 6:00 PM
Thursday	January 20, 2022	9:00 AM - 4:00 PM

EXHIBITOR MOVE-OUT

Thursday	January 20, 2022	4:00 PM - 8:00 PM
----------	------------------	-------------------

DISMANTLE AND MOVE-OUT INFORMATION

All exhibitor materials must be removed from the exhibit facility by Thursday, January 20, 2022 at 8:00 PM.

To ensure all exhibitor materials are removed from the exhibit facility by the Exhibitor Move-Out deadline, please have all carriers check-in by Thursday, January 20, 2022 at 6:00 PM.

POST SHOW PAPERWORK AND LABELS

Our Exhibitor Services Department will gladly prepare your outbound Material Handling Agreement and labels in advance. Complete the Outbound Shipping form and your paperwork will be available at show site. Be sure your carrier knows the company name and booth number when making arrangements for shipping your exhibit at the close of the show.

EXCESSIVE TRASH AND BOOTH ABANDONMENT

Any excessive trash which consists of display materials, carpet, padding, crates and/or pallets will be disposed of and charged both a handling fee and disposal fee during move-in. Excessive booth materials and/or literature left in the booth at the end of the published exhibitor move-out that is not labeled for an outbound shipment will be considered abandoned and deemed as trash. The exhibitor will be charged for the removal and disposal of these items. Charges may include Installation & Dismantle Labor, Forklift/Rigging Labor, and/or Dumpster Fee.

MATERIAL HANDLING SERVICES

CRATED: Material that is skidded or is in any type of shipping container that can be unloaded at the dock with no additional handling required.

SPECIAL HANDLING: Material delivered by a carrier in such a manner that it requires additional handling, such as ground unloading, stacked or constricted space unloading, designated piece unloading, shipment integrity, alternate delivery location, loads mixed with pad wrapped material, no documentation, and shipments that require additional time, equipment or labor to unload.
Federal Express, UPS & DHL are included in this category due to their delivery procedures.

UNCRATED: Material that is shipped loose or pad-wrapped, and/or unskidded machinery without proper lifting points.

CARPET AND/OR PAD ONLY: Shipments that consist of loose carpet and/or padding only require additional labor and equipment to unload.

STRAIGHT TIME: 8:00 A.M. to 4:30 P.M. Monday through Friday

OVERTIME: Overtime is included in all costs below. There will be no additional overtime costs applied to any Material Handling charges.

Description	Price Per CWT Minimum	200LB

Exhibitor Appointed Contractors (EAC) Guidelines

Exhibitor Appointed Contractor – A contractor hired by the exhibitor to provide assistance with your equipment, display or products during move-in and/or move-out and is not an employee of your company (with the exception of manufacturers' reps) or of an official contractor for the show.

Exhibitors and Exhibitor Appointed Contractors must comply with the following guidelines:

1. An EAC shall have the right to provide services (except those services that are exclusive) and to utilize qualified employees on the exhibit floor at the request of an exhibitor. Exhibitors must submit a **Notice of Intent to Use Exhibitor Appointed Contractor** to P3 by **Friday, January 7, 2022**.
 - a. The EAC must keep in effect an insurance policy covering the duration of January 18 through January 20 that is in agreement with the Insurance Requirements set forth by NATPE. An original **Certificate of Insurance** must be submitted to P3 by **Friday, January 7, 2022**
 - b. Insurance must include worker's compensation/employer's liability in the amount of \$1,000,000; and comprehensive general liability in the amount of \$1,000,000; and must meet the requirements established by the state of Florida and name NATPE as the Certificate Holder with P3, Inc. and the Fontainebleau listed under Additional Insured.
2. All services provided by an EAC must be completed in a timely, professional manner within the established times for move-in/out.
3. The EAC must have all licenses, permits or bondings required by federal, state, county or municipal governments and the Fontainebleau prior to commencing work. The EAC must be able to provide P3 with evidence of compliance on request.
4. The exhibit floor, aisles, loading docks, service and storage areas will be under control of P3. The EAC must coordinate all activities with them and must fully cooperate and not interfere with the efficient utilization of labor.
5. To gain admittance to the exhibit floor, the EAC must possess and be able to provide P3 a true and valid Order for services from an exhibitor.
6. The EAC should perform all services in a professional manner and not engage in solicitation of current or future business on the exhibit floor at all times. Exhibitors are responsible for the conduct of the contractors they appoint.
7. All EAC personnel working in the exhibit hall will need to be registered as booth personnel under the exhibitor's allotment and will need to be badged.
8. The EAC must confine operations within the exhibit area of the exhibitor. Aisles and vacant areas may not be used as work, storage or dispatch areas.
9. The EAC will share with the official service contractor all reasonable costs related to its operation. It is the responsibility of the EAC to properly remove all installed tape from the floor and any bulk trash from exhibit hall (such as skids or crates). The official service contractor will bill the EAC accordingly for any labor necessarily provided to complete such tasks.
10. The Exhibitor is responsible for providing the EAC with any necessary information pertaining to the exhibit hall (i.e. utilities, order forms, dates, hours, shipping information, etc.)

GRAPHIC ARTWORK SUBMISSION GUIDELINES

about this guide

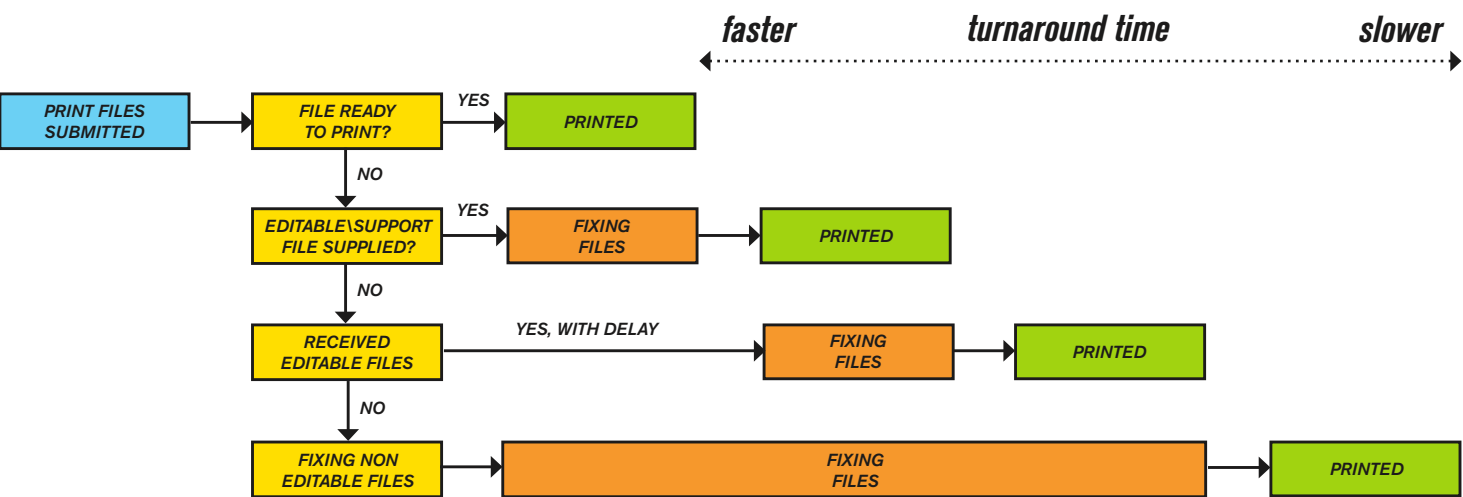

Our goal is to bring the vision of your exhibit to life. The best quality graphics starts with you. These guidelines will help you succeed in making quality event graphics. Please follow the file saving, resolution and color matching guide presented here when your submitting artwork.

fundamentals

Our specialists are trained to fix all the problems they detect, but they may face files that are not easy or quite impossible to fix: missing fonts and links, missing editable/native files, etc.... Therefore, we provided detailed guidelines on the most common file types and formats. We are sure that these guidelines will help you set up files easily and help us produce graphics trouble free. We prefer Adobe Illustrator and InDesign generated files.

typical scenarios

Best option for printing or file fixing is to have print-ready and editable files submitted together. See following pages for more details.

Please upload graphics to
<https://duggal.wetransfer.com/>

GRAPHIC ARTWORK SUBMISSION GUIDELINES

resolution (images)

NOTE: This section describes resolution recommendations for images only. If you have vector art - please keep it the way it is. We do not recommend rasterizing vector art (logos, backgrounds, etc...), since it will print sharp at any print size.

minimum resolutions for 4 - 8 ft (normal) viewing distance:

Resolution should be a minimum 60dpi (100dpi is preferred). 60 dpi produces good looking images from a close viewing distance (4 - 8 ft). This applies to art when supplied at 100% scale (1:1). When using a different scale, resolution changes accordingly (increases):

Art submitted at 1:2 scale - minimum resolution should be 120dpi or more.

Art submitted at 1:4 scale - minimum resolution should be 240dpi or more.

Art submitted at 1:8 scale - minimum resolution should be 480dpi or more.

minimum resolutions for 15 ft or more viewing distance:

For very large prints, such as hanging banners, when viewing distance is over 15ft, the minimum resolution can drop down to 30dpi (at 100% scale). If your file already has a greater resolution, leave it as is. A higher dpi is always preferred. As large graphics are often created in scale, please use the list below to estimate your resolution:

Banner art submitted at 1:2 scale - minimum resolution should be 60dpi or more.

Banner art submitted at 1:4 scale - minimum resolution should be 120dpi or more.

Banner art submitted at 1:8 scale - minimum resolution should be 240dpi or more.

visual comparison of different resolutions:

The resolution comparison chart below is best viewed at 100% zoom on your monitor and observed from few feet away. Please note that renderings may look better in print than on your monitor.

Please upload graphics to
<https://duggal.wetransfer.com/>

GRAPHIC ARTWORK SUBMISSION GUIDELINES

size:

width and height

When communicating sizes, width is always listed first. Height second.

scale

It is important to calculate the resolution of your images when submitting files in scale. Please refer to our “Resolution” section in this document for more information. The most common scales are indicated as 1:1, 1:2, 1:4, 1:8, 1:10 or 1:12 where 1ft = 1 in. This indicates how many times the art is smaller than the desired printed size.

precision and accuracy

It is always important to be very precise with art placement on the page or artboard. Small gaps can become very big ones when working in large scales.

maximum page size

Page or artboard size should never exceed 200 inches. This is a PDF limitation and files bigger than 200” will be cropped.

Example: Final graphics size is 216” inches. Please create your artwork in 1/2 scale (108”). Indicate which scale you used.

Please upload graphics to
<https://duggal.wetransfer.com/>

GRAPHIC ARTWORK SUBMISSION GUIDELINES

structures:

NOTE: You can always request a template with accurate panel sizes and breaks to be created in Illustrator for your convenience. Otherwise, follow the guidelines below.

(inset) graphics in metal frame structures

When communicating sizes, width is always listed first. Height second.

graphic overlays

Overlay graphics do not need spacing between panels. Best practice is to provide artwork placed on overall size artboard. Based on provided detail, use guides to indicate splits and if possible, try to avoid logos or copy running thru splits. Actual tiling of panels will be done during production stage.

Please upload graphics to
<https://duggal.wetransfer.com/>

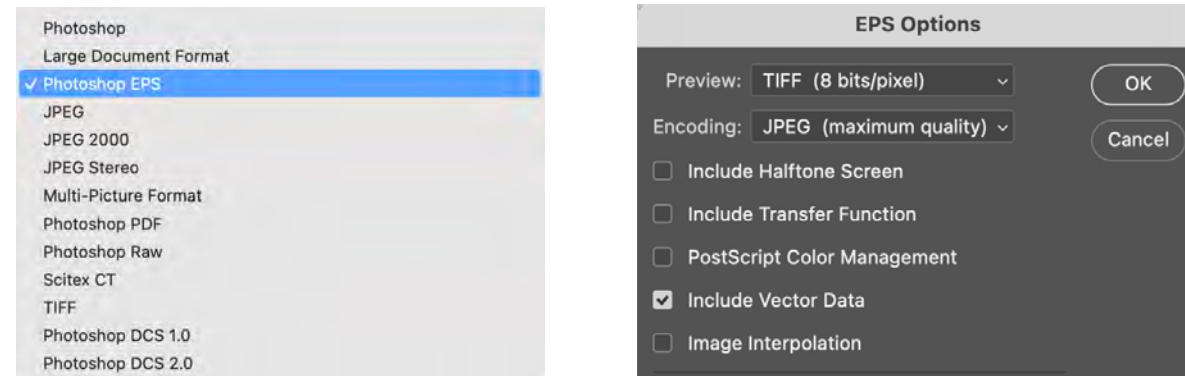

GRAPHIC ARTWORK SUBMISSION GUIDELINES

photoshop files:

regular images

Best format for regular images is “Photoshop.eps” (JPEG maximum quality). It speeds up the layout process in Illustrator and InDesign.

IMPORTANT: Match “EPS options” from the screen capture below!

Please upload graphics to
<https://duggal.wetransfer.com/>

transparent/complex images

For images with transparency, layers, spot and alpha channels, use Photoshop.tiff or PDF with “Preserve Photoshop Editing capabilities” checked on.

other formats

We prefer the formats listed above, but do support all image formats such as jpg, png, psd, 16-bit modes etc,. Few notes:

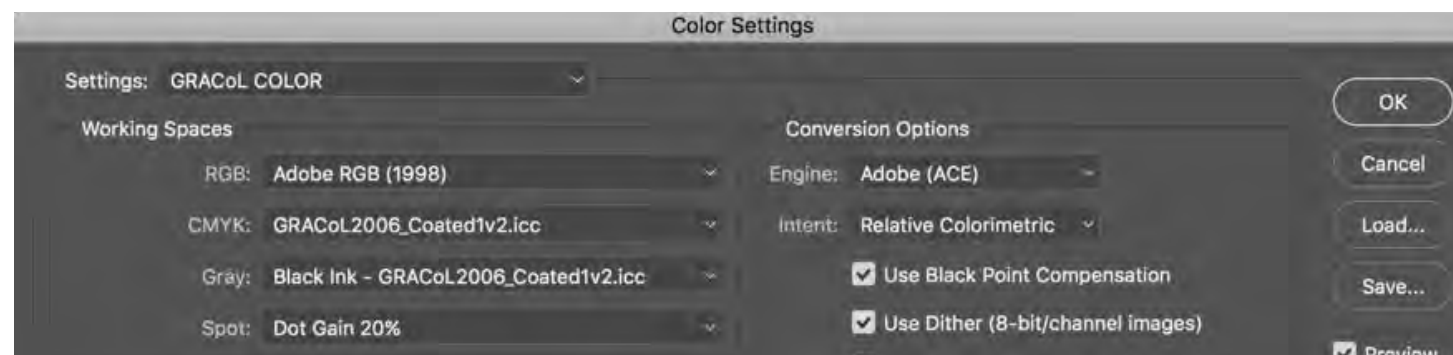

- jpgs should be high or max quality
- psd font layers should be rasterized (or fonts submitted)
- 16-bit images have to be used in InDesign only. Illustrator converts to 8-bit.

CMYK vs RGB

We support both color modes. CMYK is preferred since RGB images may display more vividly on your screen than final print.

color profiles

For accurate color preview, use the profiles and settings listed below. We are a G7 certified company. Our color management revolves around the Gracol standard. We use GRACoL2006_Coated1v2 profile for CMYK and Adobe RGB 1998 for RGB images. Please note that your screen has to be calibrated and profiled in order to display an accurate color rendering.

GRAPHIC ARTWORK SUBMISSION GUIDELINES

illustrator files:

saving PRINT files as .Ai

Illustrator PRINT files can be saved as AI files. Please match screenshot settings. “Create PDF Compatible File” MUST be on. Artboards can be separated into individual files (range).

saving PRINT files as .PDF

Illustrator PRINT files can be also saved as PDF files. It is very important to select the compatible PDF format. We recommend PDF/X-4 standard.

vector art:

Logos should be vector and have outlined fonts. If vector version is not available, provide high-res images.

native version (editable)

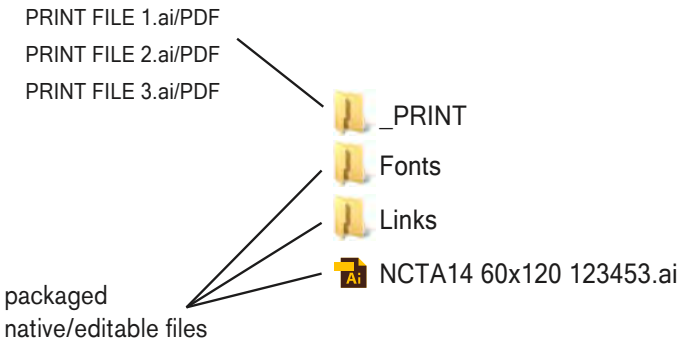

We strongly recommend submitting editable version of the files as well, including links and fonts. This is valuable in case a new PRINT file has to be generated. The best way to provide native files is by “Packaging” (File/Package). If you are a Mac user and your fonts are other than .otf, please zip pakaged files.

Please upload graphics to
<https://duggal.wetransfer.com/>

example

This is an example of all files submitted. By packaging, Illustrator creates most files and folders. _PRINT folder is created by user and contains printable version of the files described above.

color profiles

For accurate color preview, use profiles and settings listed below. We are G7 certified company. Our color manegement revolves around Gracol standard. We use GRACoL2006_Coated1v2 profile for CMYK and Adobe RGB 1998 for RGB images. Please note that your screen has to be calibrated and profiled in order to display accurate color rendering.

GRAPHIC ARTWORK SUBMISSION GUIDELINES

InDesign files:

export PRINT files as PDF

Export all pages as PDF/X-4 file. Make sure to select correct preset. Match screenshot below.

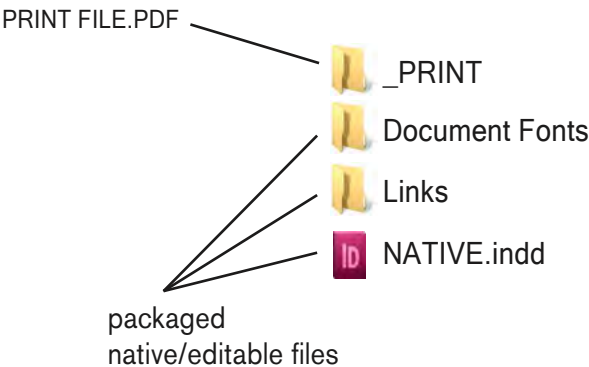

package native files (INDD, links and fonts)

Go to File/Package and complete the steps. Watch for any warning signs as some files might be missing.

example

This is an example of all files submitted. By packaging, InDesign creates most files and folders. _PRINT folder is created by user and contains printable version (PDFs) of the files described above.

color profiles

For accurate color preview, use profiles and settings listed below. We are G7 certified company. Our color management revolves around Gracol standard. We use GRACoL2006_Coated1v2 profile for CMYK and Adobe RGB 1998 for RGB images. Please note that your screen has to be calibrated and profiled in order to display accurate color rendering.
